

Polymer Modified Bitumen

Bobema Nederland B.V. supplies world-wide in self-heated tank containers any type of polymer modified bitumen, such as asphalt binders for the production of:

- high stability (fuel safe) asphalt for airports, container terminals or industrial areas, porous asphalt, SMA, ultra thin wearing courses, noise reducing wearing courses, etc;
- stress absorbing membranes;
- bond coats;
- waterproofing membranes;
- etc.

With over 20 years of experience in this field we also offer the technology for polymer modification of bitumen and assistance in up to date quality control and quality assurance for production and application of polymer modified binders and asphalt mixes.
